Wirthmor Waists  
In New Fall Models Arrive

—There's a charming simplicity about these new Wirthmor Waists that have just arrived that will appeal to every one who prefers the simple, neat, modest yet refined styles. Departing from the more elaborate styles that were favored for Summer wear, these new models are developed along the tailored and semi-tailored lines, that Fashion decrees will be most acceptable for Autumn wear. They are typical Wirthmor values, which means that they represent the best obtainable at the low price at which they are sold. Choice of several new models at ..... **2.00**

WIRTHMOR WAISTS CAN BE SOLD IN JUST ONE GOOD STORE IN EVERY CITY, AND IN THIS CITY ARE SOLD HERE ONLY.

Harry Colombo of George street, who has been having a two weeks' vacation from the office of the Tenney Service Co., returned to the city last evening, after visiting in Connecticut and Massachusetts.

Program for Macabees' bazaar, Sept. 24. Howland hall. Military drill by 16 ladies; fancy dancing by Marie Pirie; reading, Mrs. W. Lillie; male quartet. Concert starts at 7 o'clock. Admission, 10c.—adv.

Ugo Carusi, secretary to State's Attorney E. R. Davis, was ordered this morning to report for duty with Attorney General Frank C. Archibald in Randolph, where a secret inquest is to be carried on during the next two days.

A suit has been brought in Washington county court by William H. Westcott against Alfred A. Boyce, alleging slander and seeking to recover \$3,000, and William H. Westcott and Mabel L. Westcott are plaintiffs against the same defendant in a suit for \$2,000 for alleged conversion. Mr. Westcott was formerly manager of the Eastman store.

Foster Slayton, a conspicuous figure in Goddard athletics during the past two years, entered the junior class of Spaulding high school yesterday. Slayton will join the ranks of the football men as a candidate for a line position. His presence will undoubtedly be felt in basketball and baseball, he having gained a reputation as an all-around man in basketball and being a consistent twirler in baseball. It is also rumored that "Eddy" Sullivan, the left fielder with the Spaulding team last year, will join the ranks of the football men at the Spaulding school.

The friends of Miss Lillian Beaton, daughter of M. G. Beaton, who graduated last June from Goddard seminary, will be pleased to learn that she has a good position with the Forest View Realty Development company of Springfield, Mass. Her work will take her to Chicopee, Holyoke, Chicopee Falls and other places nearby.

A daughter was born at the City hospital this morning to Mr. and Mrs. James E. Mitchell of the East Montpelier road.

At the Northfield fair yesterday, a special feature act was the light Overland jumping stunt, causing the crowd to hold its breath while the car jumped a space of 20 feet. This was conducted by H. F. Cutler & Son to show the reliability of the new triple springs and the special air steel used throughout this wonderful car. No doubt this stunt will be given at other fairs if suitable arrangements can be made. The driver of the car was Charles Riddell, who, perhaps, is the most daring driver in this vicinity.—adv.

Expressing a desire for an altitude flight, W. F. Boyce and W. Bedard were accommodated yesterday afternoon by Messrs. Banks and Smith when the former carried the two passengers to a height of 5,000 feet, the highest the Avro machine has gone since it has been stationed in Barre. Sixteen passengers were taken aloft during the afternoon, the ages of the passengers ranging from seven to 84 years. The youngest was the son of Reuben King and the oldest was M. J. McLeod, father of J. G. McLeod of Barre. By the way, the trip of the elder McLeod makes the third passenger of that family to make a flight. Among the more elderly to go up with the machine was C. H. Crane, aged 76. Others carried during the day were J. H. Crane, Mrs. B. Campbell, May F. E. Langley, Dean H. Perry, H. Boyce, A. H. McKane, C. Beck, W. J. Beck, Clyde J. Lawless, C. P. Burke and Reuben King. Messrs. Langley and Perry were taken up through the courtesy of the aviators. The aviators plan to stay in Barre over next Sunday and perhaps longer.

Per order Democratic City Committee.

## MONTPELIER

Serious Depletion of City's Funds Makes Council Talk Economy.

The regular meeting of Montpelier city council took place last evening with two members absent. Finances occupied most of the time of the meeting and all subjects bore on that matter. The matter of an increase in the wages of the police department was left on the table because of lack of money, while uniforms for the fire department were voted after some talk along financial lines. The men need the equipment. It was voted last spring to buy them but some question was raised in the matter. There is a shortage of money in the street, sewer, poor and probably in some of the other departments, due to the large expenditures made in the purchase of the fire truck and what will go with it and the building of the barn at the poor farm, the former of which cost \$5,000 more than it was estimated; and the latter nearly \$4,000 more than the vote of the council appropriated for its construction. The council will have to figure very closely on its finances to get through the year and it will be absolutely necessary to cut some of the departmental appropriations through other departments. While each member of the council expressed the desire to give the policemen more pay the funds are not available and, therefore, the matter stands. The matter of planting trees this fall was left to the mayor, water committee and water commissioner. The state forester urged that fall planting occur. The persons to whom the matter was referred will investigate and act according to their judgment. The horse Max, which, since the paid fire department was instituted, has drawn the single rig, was by motion in the council last evening transferred to use in the street department, but it is understood that the fire department may recall it at any time it is needed.

Mr. and Mrs. Holden Farrar, who have been visiting with Alderman and Mrs. W. H. Farrar, have gone to their home in Cincinnati, O., while Mr. and Mrs. Louis Voller have gone to their home in Wilmington, N. C., after a visit with their daughter at the same home.

Miss Ruth Munroe, daughter of Mr. and Mrs. Donald Munroe of Middlesex, was married in Washington, D. C., recently to Norman Thomas Jelly of Altoona, Pa. Another marriage in the same family will occur shortly, it is expected. Marcus Munroe, a brother of the above-named bride, having been given a license by the city clerk to marry Helen C. Elliott of Montpelier.

Piano like new for sale at a bargain at 132 Main street.—adv.

Mrs. Elsie Gates of the fish and game commissioner's office, who was ill the first of the week, has resumed her employment. She received advice that the two barns on her father's place in Littleton burned Monday night, the fire having apparently been caused by a short circuit in the electrical apparatus in the barn. One of them was beyond saving when the fire was discovered. The other caught from this one and burned to the ground. However, the firemen were able to save the house, which stood about 10 feet from the barn.

Only a few automobile accidents took place the first part of the week, according to the reports received at the secretary of state's office. C. D. Brown of Marshfield has made a report of the accident when Mrs. H. B. Blossom's machine hit the Brown car. It is claimed in the report that the driver of Mrs. Blossom's machine put on the brakes and the car turned part way round in the road, forcing the Brown car over a bank. All escaped injury. E. A. Morse of Randolph reported that his machine hit a child, but that the child escaped injury. The child ran in front of the automobile. He reported that it was a child of Mrs. Emma Terry.

George Reed of the state engineer's office is in Barre to-day, looking after some road work.

Several from the State House went to Northfield fair during to-day and yesterday.

W. S. Teachout left this morning for Bennington, where he will see his son, and then go to Springfield, Mass., to attend the exposition.

H. T. Johnson, adjutant general, was in Rutland yesterday in connection with the new armory.

Mrs. Mary Nye is completing the indexing of the records of 1907 in the city clerk's office, which will complete the work for this year on the indexing which is being done under the supervision of the library bureau. Messrs. Jenkins and Saunders, who have been here from Boston, have gone back to their homes. The records of warrants and quit claim deeds and mortgages, which are filed in the office since last August, will be indexed by the office force. Next year it is expected that the indexing will be continued back another period of years.

Montpelier Band Concert.

## TO KEEP OUT CORN BORER

Discovery of Pest In St. Thomas, Canada, Stir U. S. Officials.

Washington, D. C., Sept. 23.—Discovery of the European corn borer in the vicinity of St. Thomas, Canada, has caused the department of agriculture to send a staff of entomologists to Michigan to confer with local authorities to forestall possible infestation of the corn crop in that state.

Experts of the bureau of entomology are concerned over the appearance of the pest in Canada. Certain sections of New York, Massachusetts, New Hampshire and Pennsylvania already have been quarantined to keep the insect from making its way to the corn belt.

The corn borer in Canada is further west than heretofore reported on this continent, and the corn affected is of the first variety, which in New England and New York has appeared to be especially susceptible to injury by the borer.

## Bright Lad.

A tire company in Indianapolis was giving away toy balloons to children, and one little fellow asked if he might have two.

"Sorry," said the man in charge, "but we only give one balloon to each boy. Have you a brother at home?"

"No," replied the truthful youngster, "but my sister has and I want it for him."—Boston Transcript.

Comparison of  
Automobile Prices

From August 12, 1918, to August 12, 1920.

The following is a comparison of price increases on leading makes of automobiles:

FORD	.....	\$200 or 44 Per Cent
MAXWELL	.....	330 or 40 Per Cent
DODGE	.....	300 or 30 Per Cent
OAKLAND	.....	345 or 33 Per Cent
CADILLAC	.....	970 or 33 Per Cent
